

Reduce your production costs Energy saving

Detect and stop air leaks

Ultrasonic Flowmeters FWD

Easy, quick and economical installation

No wiring work (autonomous battery) or modification of the pipe configuration

Clear viewing of compressed air and nitrogen consumption

Fast real-time measurement on large rotating LCD display

Early detection of air leaks

Large measurement dynamic and excellent repeatability

Measurement data you can trust

Mass flow (Build-in pressure and temperature correction)

Maximum flexibility and wide range of applications

Bidirectional ultrasonic technology with no pressure loss

Low maintenance

No filter required. High resistance to contaminated fluids.

Build to last in harsh industrial environments

Robust and waterproof design
