

# Reduction of production costs Energy saving

## Visualise and optimise your steam consumption

### WORLD'S FIRST CLAMP-ON SATURATED STEAM FLOWMETER – FSJ

#### Simple, quick, economical, and safe installation

No plant outage, no piping work, and no steam leaks

#### Measurement and data you can trust

High-accuracy algorithm with mass flow conversion

#### Maximum flexibility and a wide ranges of applications

Large flow, temperature and pressure range

#### Early detection of steam leaks

High sensitivity on low flow rates and fast response time

#### Process monitoring and corrective actions

Remote communication and diagnostic function

#### Maintenance free and low operating costs

No moving parts and no pressure loss

#### Build to last in harsh environments

Robust and waterproof design
