

Increase your production efficiency

Energy Recovery

Optimal thermal energy & flow measurement

Primary Flow Elements with DP transmitters FCX

Standardized metering for high accuracy measurement

Compliant with the requirements of international standards, ISO5167 and PED

Maximum flexibility and wide range of applications

Available for high temperature including steam, condensate, and gas

Low installation and operating costs

Design for minimal pressure loss & short straight lengths

Maintenance-free

Enable calibration without shutting down your production

Built to last and to increase the availability of your equipment

Erosion and corrosion-resistant. Great robustness (lifetime > 25 years)

Customized solutions available to meet your specific applications

Design to outperform with FCX DP transmitters. Wet calibration available.

Differential pressure transmitter FCX

Orifice plates and corner taps

Venturis and Nozzles
