

# Measurements for energy and environment

# Fuji Electric Co., Ltd. group

## Key figures

Group Headquarters  
Tokyo, Japan

Established in **1923** in Tokyo, Japan

**8 billion Euros**

Turnover 2021

(as for March 2022)

**26 757** employees

Global network: **207** factories  
and sales offices in **21** countries

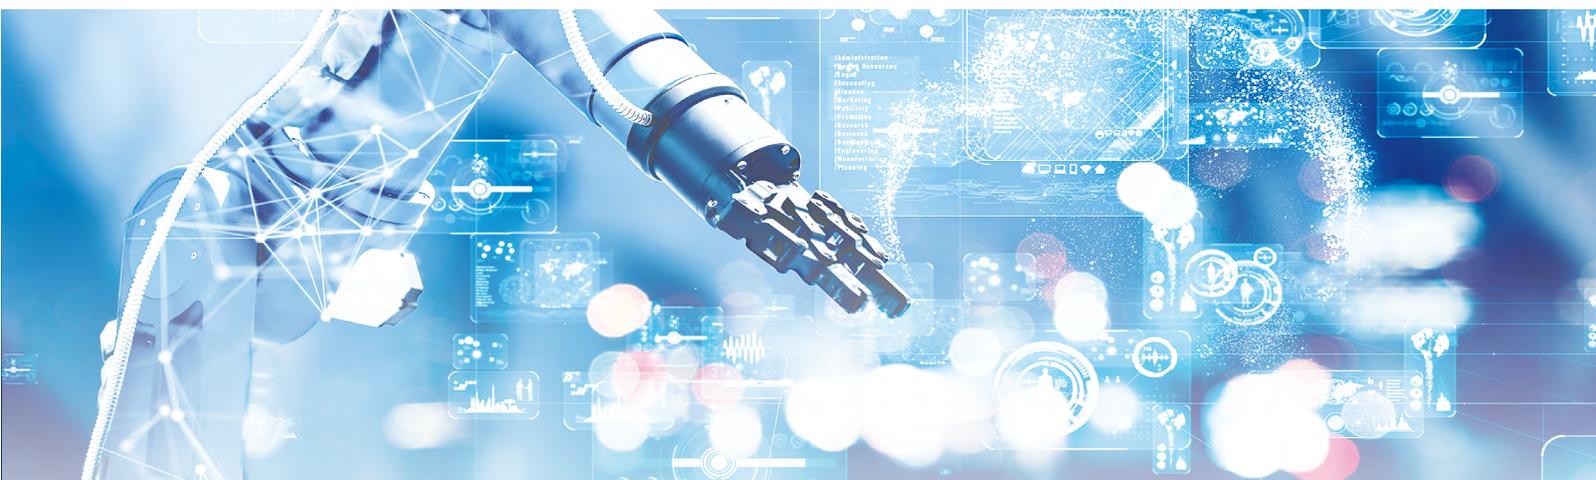

## Four business segments

**Power electronics for energy and industry**

**Power generation**

**Semiconductors**

**Food and beverage distribution**

# Fuji Electric France S.A.S.

## Key figures

Annual production capacity  
of **30,000** pressure transmitters

**24 million Euros**

Turnover 2021

(as for March 2022)

**140 employees** in 2 manufacturing  
sites, 2 sales offices

Products spread in over  
**50 countries in EMEA**

## Your satisfaction is our priority

**Short lead times & availability**

**Reactivity**

**Reliability**

**Tailor-made**

# Fuji Electric France

## Specialist in instrumentation and gas analysis

At Fuji Electric France, we are inspired to create sustainable solutions through our commitment to innovation and experience in instrumentation and gas analysis solutions.

Our 25 years of technical expertise in design and manufacturing pressure transmitters, along with cooperation and enthusiasm, help us address the toughest environmental challenges faced by our customers today.

We strive for excellence with premium services tailored specifically towards energy efficiency. All so that together we can contribute positively to building a more vibrant future society!

## Pressure

### Pressure, flow, level or density measurement

Differential, relative and absolute pressure transmitters  
Diaphragm seals  
Hydrostatic level measurement  
DP Flow meter with primary element

# Flow

## Fluid flow measurement

Ultrasonic flow meters for air, liquid and steam

# Gas analysis

## Optimise industrial processes

## Combustion control and atmospheric emissions monitoring

Continuous Emission Monitoring Systems (CEMS)

Oxygen gas analysers

Multigas infrared analysers

Laser gas analysers

# Energy

## Energy savings and measurements

Liquid, air, gas, biogas, steam and electricity metering

---

# Temperature

## Process temperature measurement

Temperature sensors & transmitters  
Signal conditioners  
Digital indicators

---

# Process control

## Industrial systems automation

Temperature controllers  
Human Machine Interfaces  
APR (power controllers)  
Drives & inverters

---

# Radiation protection

## Ensuring the physical safety of workers

Electronic personal dosimeters  
Neutron survey meters

---

# Solutions

A Research and Development centre  
to develop tomorrow's instrumentation  
solutions with you.

# Services

## Maintenance contracts and commissioning of instruments

Fuji Electric is here to help you in the metrological follow-up and in the maintenance of your measuring instruments.

Our team of experts will collaborate with you to develop a tailored maintenance plan that meets all of your needs and ensure the accuracy of your measurement instruments throughout their life cycle.

With our help, you will reduce operating risk and optimise your process while enhancing the added value of your installation.

**Maintenance** *Training On-site calibration*  
*Support* **Consulting** *Commissioning*  
**Reactivity** *Expertise Availability Engineering*

## Quality

### Certifications & Approvals

We ensure the excellence of our products through compliance with rigorous standards, based on norms established in each country.

Fuji Electric France is committed to implementing an integrated management system, based on the principle of continuous improvement, in compliance with the requirements of ISO 9001 and ISO 14001.

#### Quality Certification: ISO 9001: 2015

Quality Management Systems  
(certificate N°1997/8402)

#### Environmental Certification: ISO 14 001: 2015

Environmental Management Systems  
(certificate N°2014/59264)

#### Explosive atmospheres

ATEX - IECEx - cCSAus - TR CU 012

#### Product compliance

UE - EAC - UKCA - RoHS - REACH

#### Nuclear

K3-A/1E and K3-AD/1E

#### Safety

SIL2 / SIL3 (IEC 61508 & IEC 61511)

#### Marine

DNV (Type approval)

#### Oil & Gas

NACE MR0103 and NACE MR0175

#### Environmental measures

TÜV / MCERTS QAL1 EN14181

#### Custody transfer

MID MI-002 Certification / Biogas CET (France)  
MID MI-004 Certification  
ISO 5167
