

# X1-SS OPERATING INSTRUCTIONS

Thank you for purchasing X1-SS.

The X1-SS is a setup USB media for adding security functions to the X1 series.

Make sure that the delivered unit conforms to your requirement, and also check for any missing or damaged parts.

## Product Configuration

---

X1-SS (USB media to setup security functions for the X1 series).....	1 pc.
Operation Instruction (This manual).....	1 copy

## About X1-SS

- You can add security functions to the X1 series by inserting the X1-SS into the X1 series and running the setup file in the X1-SS. For details, please refer to the "Setup Procedures" below.
- For details on how to use the security functions, refer to the X1 Series Hardware Specifications manual.

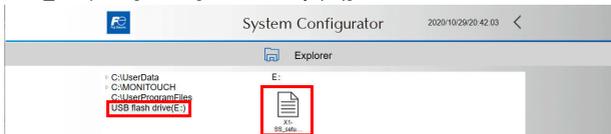

## Notes

- Unauthorized use, duplication, reprinting, or modification of this setup file or the manual, in whole or in part, is prohibited regardless of the form.
- The specifications of this setup file and the information in this manual are subject to change without notice.
- If there is a discrepancy between the specifications of this setup file and the instructions in this manual, the setup file specifications take precedence.
- Hakko Electronics Co., Ltd. bears no responsibility for the results of using the setup file.
- One unit of this product is required per the X1 series unit. This product can be used to set up security functions only once.
- For further information, please contact us.

## Setup Procedures

1. Insert the X1-SS into a USB port of the X1 series.
2. In the System Configurator, touch the Explorer. \*1
3. Double-touch [X1-SS\_setup.exe] in the [USB Memory (E:)] folder\*2 to execute it.

4. When the setup is complete, the message "Setup is complete." appears. If the message other than "Setup is complete." appears, please try again or contact us.

\*1 For more information about the System Configurator, please refer to the X1 Series Hardware Specifications manual.

\*2 The name of the USB flash drive may vary depending on the user's environment.
